2.1.21. HOT LUCK BONUS

“HOT LUCK” is an interactive mystery BONUS with three (3) levels (Minor, Major and Mega) with a bonus screen and an additional scatter level: FEVER Bonus.

Interactive mode

When a player activates the mystery bonus, he enters a bonus screen and plays for one of the mystery BONUS levels. The bonus screen is composed of 30 plates that the player can choose. Each plate can contain a symbol, corresponding to one of the BONUS levels, that when is selected, is attached to the corresponding BONUS level in the upper part of the game screen.

After collecting four (4) plates with the same symbol, the player is awarded the corresponding BONUS level and the bonus screen closes. The time for selecting the plates is limited by a timeout. If the player exceeds that time, the interactive mode is automatically completed, and the player is awarded the BONUS amount resulting from the bonus.

Scatter mode

Scatter wins are activated when reaching one of the three (3) mystery BONUS levels. The total amount of bonus scatter is equal to the current value of the Lead level of the BONUS (FEVER bonus). The duration and the bonus win amount in scatter mode depends on the scatter settings and from the number of active players. This mode ends when all the wins are paid.

“Hot Luck” thermometer

With each bet, the HOT LUCK scale rises until it reaches the top or one of mystery BONUS levels – Minor, Major or Mega – is hit. Then the scatter mode becomes ‘ACTIVE’, and scatter winnings are distributed between other active players. When the whole amount of the scatter bonus is paid, the sign ‘ACTIVE’ disappears, and the scale goes back down.

NOTE: “HOT LUCK BONUS” is applicable for all the games above.
