2.1.1. 20 CLOVERS HOT

“20 Clovers Hot” is a five (5) reels, twenty (20) lines video slot game. The characteristics of the game are given below:

- All wins begin with the leftmost reel and pay left to right on adjacent reels only, except scatters which pay on any position.
- Only highest win is paid on each played line.
- The wild “4-leaf Clover” symbol substitutes for all other symbols, except for the scattered “Star” symbol.

- The top award is achieved with five (5) “Star” scatter symbols on any position.
- The scatter wins are awarded when three (3), four (4) or five (5) scattered “Star” symbols appear in any position.

Gamble Option

- After a win which is less than 15 x total bet, the player can enter the double-up mode by pressing double button.
- In the middle of the screen, a card is displayed face down.
- The player should guess whether the card is red or black, or the suit of the card.
- If the player has guessed the correct card color, the gamble amount is multiplied by two (2).
- If the player has guessed the correct card suit, the gambled amount is multiplied by four (4).
- If the player has selected an incorrect card color or suit, the gambled amount is lost.
- At any time, the player can exit the double-up mode and return to the game by collecting the win with the start button.
- The player can choose to gamble half of his current win by pressing half gamble button.
- The win can be doubled up to 50 x total bet.
- When this limit is reached, the player collects the win automatically and returns to the main game.

Mystery Bonus

- If the feature is activated, at the end of each game, the player can enter a mystery bonus feature and play to win one of the three mystery bonus levels: “Minor”, “Major” or “Mega”.
- The bonus screen has thirty (30) gold tiles that the player must choose one at a time.
- Each tile may have a symbol in it, which corresponds to one of the bonus levels.
- When picked, the symbol moves to the bonus level, displayed at the top of the screen.
- If the player collects four (4) tiles with the same symbols, he is awarded the corresponding bonus level and the bonus game ends.

Scatter Bonus

- If this feature is activated, each bet rises the scale of the “Hot Luck” thermometer on the screen, indicating an accumulation of the Bonus until it reaches the top or if one of the three bonus “Minor”, “Major” or “Mega” is hit.
- When the scatter mode is active, a sign “Active” is displayed on the thermometer and scatter winnings are distributed between all active players within allowed bet limits.
- At the end of each game the player can be shown the “Hot Luck” win animation.
- The duration of the scatter mode depends on the scatter setting and number of active players.
- It ends when all the winnings are paid off. The sign “Active” on the screen disappears and the scale goes back down

2.1.6. CHILLI FRUITS

“Chilli Fruits” is a five (5) reels, 10 lines video slot game. The characteristics of the game are given below:

- Only highest win is paid on each played line.
- The top award is achieved with five (5) “7” symbols on a paying line.
- The wild “Chilli” symbol appears only on the 2nd, 3rd and 4th reels, and substitutes for all other symbols in all positions on the reel.
- All the wins, except for the combinations of 5 symbols, are paid from left to right and from right to left.
- All winning combinations of 5 symbols are paid from left to right.
- Only symbols on adjacent reels can form a winning combination.

Free Respins

- When one or more “Chilli” symbols appear on the screen, they stick on the reel and the player wins 1 Free Respin for the rest of the reels.
- If, during the Free Respin, one or more “Chilli” symbols appear, they also stick on the reel, and the player gets another Free Respin.
- The player can win up to 3 consecutive Free Respins.
- The reel bands in paid games and Free Respins are different.
- The number of lines and bet per line in Free Respins are the same as in the paid game that triggered the Free Respin mode.

Gamble Option

- After a win which is less than 10 x total bet, the player can enter the double-up mode by pressing double button.

- When picked, the symbol moves to the bonus level, displayed at the top of the screen.
- If the player collects four (4) tiles with the same symbols, he is awarded the corresponding bonus level and the bonus game ends.

Scatter Bonus

- If this feature is activated, each bet rises the scale of the "Hot Luck" thermometer on the screen, indicating an accumulation of the Bonus until it reaches the top or if one of the three bonus "Minor", "Major" or "Mega" is hit.
- When the scatter mode is active, a sign "Active" is displayed on the thermometer and scatter winnings are distributed between all active players within allowed bet limits.
- At the end of each game the player can be shown the "Hot Luck" win animation.
- The duration of the scatter mode depends on the scatter setting and number of active players.
- It ends when all the winnings are paid off. The sign "Active" on the screen disappears and the scale goes back down

2.1.7. DARK WOODS

"Dark Woods" is a five (5) reels, 30 lines video slot game. The characteristics of the game are given below:

- All wins begin with the leftmost reel and pay left to right on adjacent reels only, except scatters which pay on any position.
- Only highest win is paid on each played line.
- The top award is achieved with five (5) scattered "Elf" symbols.
- The wild "Unicorn" symbol appears only on the 2nd, 3rd and 4th reels, and substitutes for all other symbols except for the Scatter.

Cascading Feature

- When the wins from the current game are paid, all the symbols featured in the winning combination disappear, the symbols above them cascade down in their places and the free space left on the reels is taken by the new symbols.
- If there is a winning combination after this cascade, it is paid as well.
- This continues until a screen with no winning combinations appears.
- The replacement of symbols is free.

Gamble Option

- After a win which is less than 15 x total bet, the player can enter the double-up mode by pressing double button.
- In the middle of the screen, a card is displayed face down.
- The player should guess whether the card is red or black, or the suit of the card.
- If the player has guessed the correct card color, the gamble amount is multiplied by two (2).
- If the player has guessed the correct card suit, the gambled amount is multiplied by four (4).
- If the player has selected an incorrect card color or suit, the gambled amount is lost.
- At any time, the player can exit the double-up mode and return to the game by collecting the win with the start button.
- The player can choose to gamble half of his current win by pressing half gamble button.
- The win can be doubled up to 50 x total bet.
- When this limit is reached, the player collects the win automatically and returns to the main game.

Mystery Bonus

- If the feature is activated, at the end of each game, the player can enter a mystery bonus feature and play to win one of the three mystery bonus levels: "Minor", "Major" or "Mega".
- The bonus screen has thirty (30) gold tiles that the player must choose one at a time.
- Each tile may have a symbol in it, which corresponds to one of the bonus levels.
- When picked, the symbol moves to the bonus level, displayed at the top of the screen.
- If the player collects four (4) tiles with the same symbols, he is awarded the corresponding bonus level and the bonus game ends.

Scatter Bonus

- If this feature is activated, each bet rises the scale of the "Hot Luck" thermometer on the screen, indicating an accumulation of the Bonus until it reaches the top or if one of the three bonus "Minor", "Major" or "Mega" is hit.
- When the scatter mode is active, a sign "Active" is displayed on the thermometer and scatter winnings are distributed between all active players within allowed bet limits.
- At the end of each game the player can be shown the "Hot Luck" win animation.
- The duration of the scatter mode depends on the scatter setting and number of active players.
- It ends when all the winnings are paid off. The sign "Active" on the screen disappears and the scale goes back down

2.1.8. FLUFTAILS

"Fluftails" is a five (5) reels, 25 lines video slot game. The characteristics of the game are given below:

- All wins begin with the leftmost reel and pay left to right on adjacent reels only, except scatters which pay on any position.
- Only highest win is paid on each played line.
- The wild "Dog" symbol substitutes for all other symbols except for the scatter.
- The top award is achieved with five (5) "Gray Cat" symbols on an active payline.

Gamble Option

- After a win which is less than 10 x total bet, the player can enter the double-up mode by pressing double button.
- In the middle of the screen, a card is displayed face down.
- The player should guess whether the card is red or black, or the suit of the card.
- If the player has guessed the correct card color, the gamble amount is multiplied by two (2).
- If the player has guessed the correct card suit, the gambled amount is multiplied by four (4).

- At any time, the player can exit the double-up mode and return to the game by collecting the win with the start button.
- The player can choose to gamble half of his current win by pressing half gamble button.
- The win can be doubled up to 50 x total bet.
- When this limit is reached, the player collects the win automatically and returns to the main game.

Free Games mode

- 3, 4 or 5 scattered "Woolen Balls" symbols trigger 15 Free Games.
- If, during the Free Games, 3 bonus symbols "Black Cat" appear on reels 2, 3 and 4, the player wins the Ball Bonus.
- The initial win multiplier during the free games is x1.
- If during the Free Games the Ball Bonus is hit and "x2" is chosen, then the win multiplier becomes x3.
- If during the same Free Games feature the Ball Bonus is hit again and "x2" is chosen, then the win multiplier becomes x5.
- This is the maximal value if the win multiplier during the Free Games.
- If the Ball Bonus is hit again during this set of Free Games, then "x2" is substituted by "7 Super Games"
- In this way, all the wins during the Free Games, except for 5 "Grey Cat" symbols are multiplied by the win multiplier, which can be x1, x3 or x5.

Ball Bonus

- The player can choose one of the 5 balls on the screen, which brings one of the following Bonus prizes:
 - 15 additional free games
 - 10 additional free games
 - 10 Super Games
 - 7 Super Games
 - x2 Multiplier

Super Games

- Super Games are Free Games, where only the animal symbols, giving high wins, are featured.
- Super Games start immediately after the Bonus end, and their number can be 7 or 10.
- The win multiplier during the Super Games is the same as in the current Free Games and the same rules apply for multiplying the wins.
- The sets of reels in paid, free and Super games are different.
- The number of lines and bet per line in free games and in Super games are the same as in the last paid game triggering the free games.

Mystery Bonus

- All wins begin with the leftmost reel and pay left to right on adjacent reels only, except scatters which pay on any position.
- Only highest win is paid on each played line.
- The scattered wild "Golden Cup" symbol substitutes for all other symbols in the game, and trigger the free game mode.
- The top award is achieved with five (5) "Tree" symbols on an active payline.

Gamble Option

- After a win which is less than 15 x total bet, the player can enter the double-up mode by pressing double button.
- In the middle of the screen, a card is displayed face down.
- The player should guess whether the card is red or black, or the suit of the card.
- If the player has guessed the correct card color, the gamble amount is multiplied by two (2).
- If the player has guessed the correct card suit, the gambled amount is multiplied by four (4).
- If the player has selected an incorrect card color or suit, the gambled amount is lost.

- At any time, the player can exit the double-up mode and return to the game by collecting the win with the start button.
- The player can choose to gamble half of his current win by pressing half gamble button.
- The win can be doubled up to 50 x total bet.
- When this limit is reached, the player collects the win automatically and returns to the main game.

Free Games mode

- 3, 4 or 5 "Golden Cup" on the screen trigger the Free Games mode.
- A bonus screen appears, where the player has to choose one of the Three
- Nymph's symbol, which will act as an expanded wild until the end of the free games.
- After the additional wild is chosen, 15 free games start.
- Additional 15 free games can be won during the free games mode.
- The additional expanded wild substitutes for all other symbols, except for the "Golden Cup".

Mystery Bonus

- If the feature is activated, at the end of each game, the player can enter a mystery bonus feature and play to win one of the three mystery bonus levels: "Minor", "Major" or "Mega".
- The bonus screen has thirty (30) gold tiles that the player must choose one at a time.
- Each tile may have a symbol in it, which corresponds to one of the bonus levels.
- When picked, the symbol moves to the bonus level, displayed at the top of the screen.
- If the player collects four (4) tiles with the same symbols, he is awarded the corresponding bonus level and the bonus game ends.

Scatter Bonus

- If this feature is activated, each bet rises the scale of the "Hot Luck" thermometer on the screen, indicating an accumulation of the Bonus until it reaches the top or if one of the three bonus "Minor", "Major" or "Mega" is hit.
- When the scatter mode is active, a sign "Active" is displayed on the thermometer and scatter winnings are distributed between all active players within allowed bet limits.
- At the end of each game the player can be shown the "Hot Luck" win animation.
- The duration of the scatter mode depends on the scatter setting and number of active players.
- It ends when all the winnings are paid off. The sign "Active" on the screen disappears and the scale goes back down

2.1.19. WIN STORM

"Win Storm" is a five (5) reels, 30 pay lines video slot game. The characteristics of the game are given below:

- All wins begin with the leftmost reel and pay left to right on adjacent reels only, except scatters which pay on any position.
- Only highest win is paid on each played line.
- The wild "Diamond" symbol substitutes for all other symbols except for the scatter symbol, "Storm".
- Appears only on reels 2, 3 and 4.
- The top award is achieved with five (5) "Storm" scatter symbols.
- When the wins from the current game are paid, all the symbols featured in the winning combination disappear, the symbols above them cascade down in their places and the free space left on the reels is taken by the new symbols.
- If there is a winning combination after this cascade, it is paid as well.
- This continues until a screen with no winning combinations appears.
- The replacement of symbols is free.

Gamble Option

- After a win which is less than 15 x total bet, the player can enter the double-up mode by pressing double button.
- In the middle of the screen, a card is displayed face down.
- The player should guess whether the card is red or black, or the suit of the card.
- If the player has guessed the correct card color, the gamble amount is multiplied by two (2).

- If the player has guessed the correct card suit, the gambled amount is multiplied by four (4).
- If the player has selected an incorrect card color or suit, the gambled amount is lost.
- At any time, the player can exit the double-up mode and return to the game by collecting the win with the start button.
- The player can choose to gamble half of his current win by pressing half gamble button.
- The win can be doubled up to 50 x total bet.
- When this limit is reached, the player collects the win automatically and returns to the main game.

Mystery Bonus

- If the feature is activated, at the end of each game, the player can enter a mystery bonus feature and play to win one of the three mystery bonus levels: "Minor", "Major" or "Mega".
- The bonus screen has thirty (30) gold tiles that the player must choose one at a time.
- Each tile may have a symbol in it, which corresponds to one of the bonus levels.
- When picked, the symbol moves to the bonus level, displayed at the top of the screen.
- If the player collects four (4) tiles with the same symbols, he is awarded the corresponding bonus level and the bonus game ends.

Scatter Bonus

- If this feature is activated, each bet rises the scale of the "Hot Luck" thermometer on the screen, indicating an accumulation of the Bonus until it reaches the top or if one of the three bonus "Minor", "Major" or "Mega" is hit.
- When the scatter mode is active, a sign "Active" is displayed on the thermometer and scatter winnings are distributed between all active players within allowed bet limits.
- At the end of each game the player can be shown the "Hot Luck" win animation.
- The duration of the scatter mode depends on the scatter setting and number of active players.
- It ends when all the winnings are paid off. The sign "Active" on the screen disappears and the scale goes back down

2.1.20. WIZARD BLIZZARD

"Wizard Blizzard" is a five (5) reels, 30 pay lines video slot game. The characteristics of the game are given below:

- All wins begin with the leftmost reel and pay left to right on adjacent reels only, except scatters which pay on any position.
- Only highest win is paid on each played line.
- The wild "Black Cat" symbol substitutes for all other symbols except for the scatter symbol.
- Appears only on reels 2, 3, 4 and 5.
- The top award is achieved with five (5) "Girl" symbols on a payline.

Wizard Bonus

- When Wizard bonus screen appears, the player wins 3, 4 or 5 reels with one and the same stacked symbol.
- Such symbol may be "Scatter", "10", "J", "Q", "K", "A", "Amulet", "Magic Ball", "Book", "Owl" or "Girl".

Free Games mode

- 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 or 15 scatter symbols trigger respectively 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 65, 70 or 75 free games.
- 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 or 15 scatters during the free games give respectively 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 65, 70 or 75 additional free games.
- The sets of reels in the paid games and in the free games are different.
- The bet per line and number of lines during the free games are the same as in the last paid game that triggered the
- Free games mode.

Gamble Option

- After a win which is less than 15 x total bet, the player can enter the double-up mode by pressing double button.
- In the middle of the screen, a card is displayed face down.
- The player should guess whether the card is red or black, or the suit of the card.
- If the player has guessed the correct card color, the gamble amount is multiplied by two (2).
- If the player has guessed the correct card suit, the gambled amount is multiplied by four (4).
- If the player has selected an incorrect card color or suit, the gambled amount is lost.
- At any time, the player can exit the double-up mode and return to the game by collecting the win with the start button.
- The player can choose to gamble half of his current win by pressing half gamble button.
- The win can be doubled up to 50 x total bet.
- When this limit is reached, the player collects the win automatically and returns to the main game.

Mystery Bonus
